An easy and practical introduction to the knowledge of the Latin tongue: or an exemplification of the rules of construction, corresponding to those of the Philadelphia grammar; with two indexes and a few necessary cautions, to assist youth in translating with more accuracy. To these there is added an epitome of general history, and some account of the affairs of Greece, from the days of Epaminondas, until they coincide with the history of Rome. Some examples of themes are annexed, with a few select discourses on various subjects. By James Davidson. Philadelphia, Printed by Charles Cist, 1798.

Davidson's shilling volume of Cumberland's plays, with remarks, biographical and critical ... London, G. H. Davidson [etc., ca. 1849–55]

14 v. in 17. fronts. 15cm.

Binder's title: Cumberland's plays.

167 plays of the more than 500 originally issued in Cumberland's British theatre and Minor theatre, the editions often being identical with those in the L. C. sets.

Each play has special t.-p. and paging and frontispiece by R. Cruikshank. The "Remarks" are signed D.—G. (*i. e.* George Daniel).

The engraved frontispieces to each volume, generally dated, are evidently often earlier than the plays, which are all undated.

Imperfect: The stranger (no. 3) in v. 24 wanting.

Mistakes in binding: Extra copy of Fitzball's The floating beacon (v. 1, no. 5) bound in v. 8; Simpson and co., by John Poole, appears as no. 4
